Day 2: Paracas, Peru

Ballestas Islands Sightseeing Boat Ride (from Paracas)

DepartureTimes: **08:00, 10:00**

Duration: **2 hrs.**

As you cruise west from the tiny beach town of Paracas, you won't be able to miss the Candelabra geoglyph, a 150m high and 50m wide figure of a candlestick etched into the mountain, rumored to have been an ancient guide for sailors or a connection to the Nazca lines. A short description and time for photos is given before cruising on to the famous Ballestas Islands.

Ballestas islands is an excellent opportunity to see large families of over 100 sea lions sleeping on the shores, basking in the sun on the rocks or some barking loudly in efforts to protect their territory. Spot cormorants, the Peruvian booby and Peruvian pelican as well as other impressive varieties of sea bird species and Humboldt penguins nesting together in small groups. Feeling lucky? Watch the waters for dolphins.

Apart from the abundant marine and bird life found here, the Ballestas Islands are also very well known for the guano (seabird droppings) deposited on the island over thousands of years which creates a natural reserve of nitrogen-rich fertilizer over 50 meters deep in some areas. The guano came to be Peru's #1 export in the mid-19th century however today the extraction of guano has been regulated to every 10 years.

The return trip to Paracas is a quick, very windy, direct boat ride to the dock. You should have some time to take photos of the friendly pelicans that hang out on the shore line beside the dock, do some souvenir shopping or grab a snack before heading on to your next destination.

A roller coaster ride of 360's, sharp turns and steep hills will get your adrenaline pumping before you take your first shot at sand boarding. Strap yourself in tightly, throw your hands in the air and scream away as you are carried over sand dunes in the middle of the expansive desert.

You will have the opportunity to sandboard on 3-4 different dunes so you can try your luck. You will take thrilling rides on a basic sandboard by laying face first on the board and letting yourself fly down the dune to see how far (and fast) you can go. Cheer on your mates and don't let anyone shy away from this unforgettable experience.
